

Symptoms of the Black Death

Matching activity

Subject:	History
Age groups:	8 – 11, 12 - 14
Topic:	The Middle Ages

This resource was originally developed by S. Moradi and S. Tanner and has been adapted for EAL Nexus.

1. Match the sentences to the images.
2. Arrange the sentences in the right order.

Next, the bacteria multiplied in the fleas' gut.	Firstly, rats carried the plague.
Then fleas bit the infected rats.	As a result, the humans became sick.
In the end, the humans usually died.	After than the fleas bit the humans.
